

SEARCH

Find the Cases & Images You Need, **FAST**

TYPICAL ORGANIZATIONAL FLOW

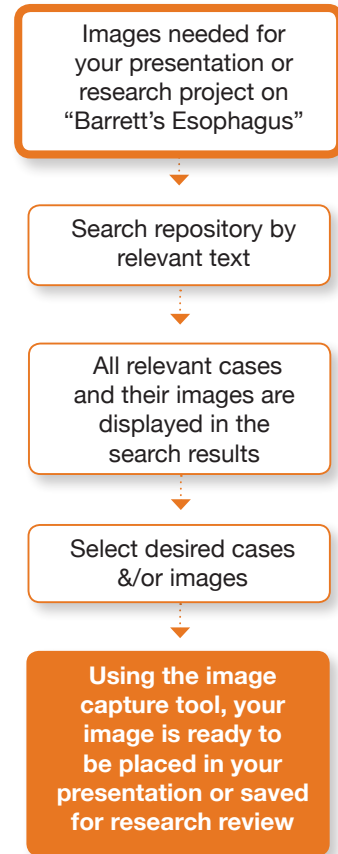

Total turn-around-time: One or more DAYS!

- ⚠ A preliminary search must be performed in LIS to obtain a list of cases with the features of interest.
- ⚠ User must determine which cases have whole slide images available.
- ⚠ User must search for each case separately by accession number only.
- ⚠ In image repository, user must open each case to review images for relevance.

Each case must be reviewed separately. Total time involved can be as much as a day or more depending upon the turn-around-time to receive the initial LIS search results and then upon how many cases must be reviewed.

DP3™ SEARCH WORKFLOW

Total turn-around-time: MINUTES

- ✓ Searches may be performed on a variety of parameters including accession number, organ, or other text contained in the patient report.
- ✓ User has the option to search for case or images only.
- ✓ **All** relevant cases are shown in one search.
- ✓ Slides are shown in search results for immediate review.

Time to complete your search is less than a minute. Your images can then be accessed, reviewed, and ready for your use.
